

Things To Come
A Journal of Biblical Literature
~

A Complete and Combined
Subject
and
Scripture
Index

This index is the result of many hours of data entry, database manipulation, desktop publishing and proofing after proofing. It started out as a labor of love from my wife, who did all of the data entry. I had painstakingly collected an original set of Things To Come a number of years ago and she graciously started to index them for me. This was started before the advent of the Personal Computer and was done by hand! Needless to say it was only partially finished. When I heard of this current re-print I decided that for the benefit of all we would complete the index, yet this time aided by a PC. Here are the results of that work. We trust it will be helpful in your useage of these volumes!

During our compilation, we have both come to appreciate the breadth and depth of Things To Come. It was more than a monthly devoted to Dispensational issues. It was, as its own subtitle reads, "A Journal of Biblical Literature." Not many periodicals in existence today can claim such similar Biblical contents.

For those who have IBM or compatible PCs, this index is available in dBase or ASCII format. Please write for details.

Yours for the study of God's Word,
